

Full run with augmentations 13.05.2021

Valters results from his first full run without augmentations:

- Test Best IoU: 0.776
- Test Background: 0.98
- Test Miza IoU: 0.82
- Test Zars IoU: 0.55

Run contained following parameters:

1. Model type:
 - Pre-trained deeplabv3_resnet50
 - Pre-trained fcn_resnet50
 - Valters Unet3+
2. Learning rate:
 - 0.01
 - 0.001

Abiem pre-trained modeliem args.replace_head False

Augmentations parameters (probability that it would be applied, where 0 is min, 1 is max):

- rotation - 0.3
- brightness - 0.2
- contrast 0.3
- perspective - 0.3
- noise - 0.2
- hflip - 0.5
- vflip - 0.5

Results of first gridsearch with augmentations:
