

Best CNN model results on several inference sets

☰ Tags	Emo Old
📅 Date	@21/07/2022
⚙️ Status	Done

Model: CNN (no. 17 from '4_class_classification_CNN_v2' run on vea-165)

Model trained on 16k data

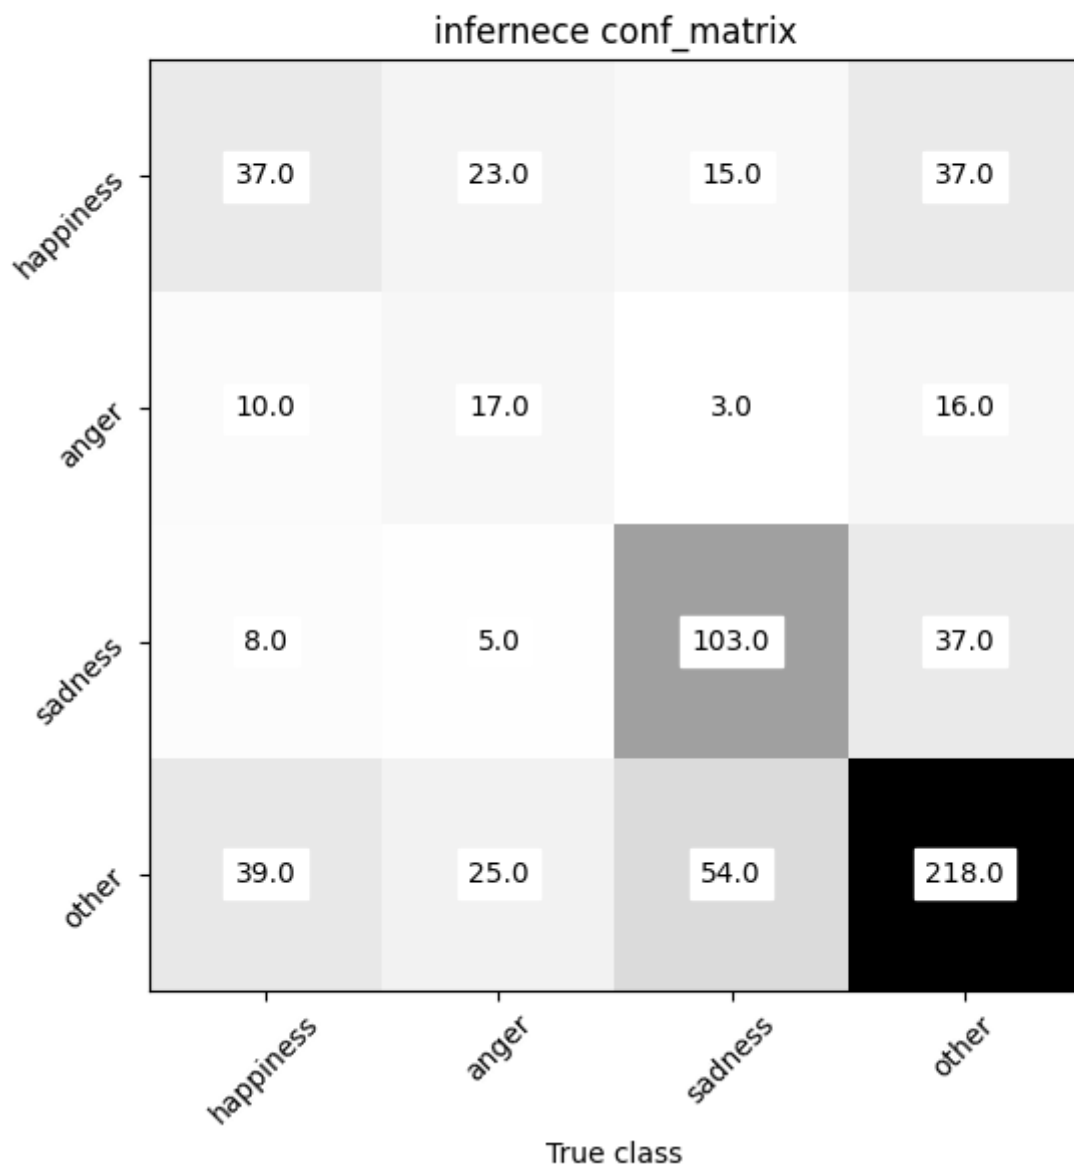

Inference results during training on improv team dataset:

acc: 58.0%

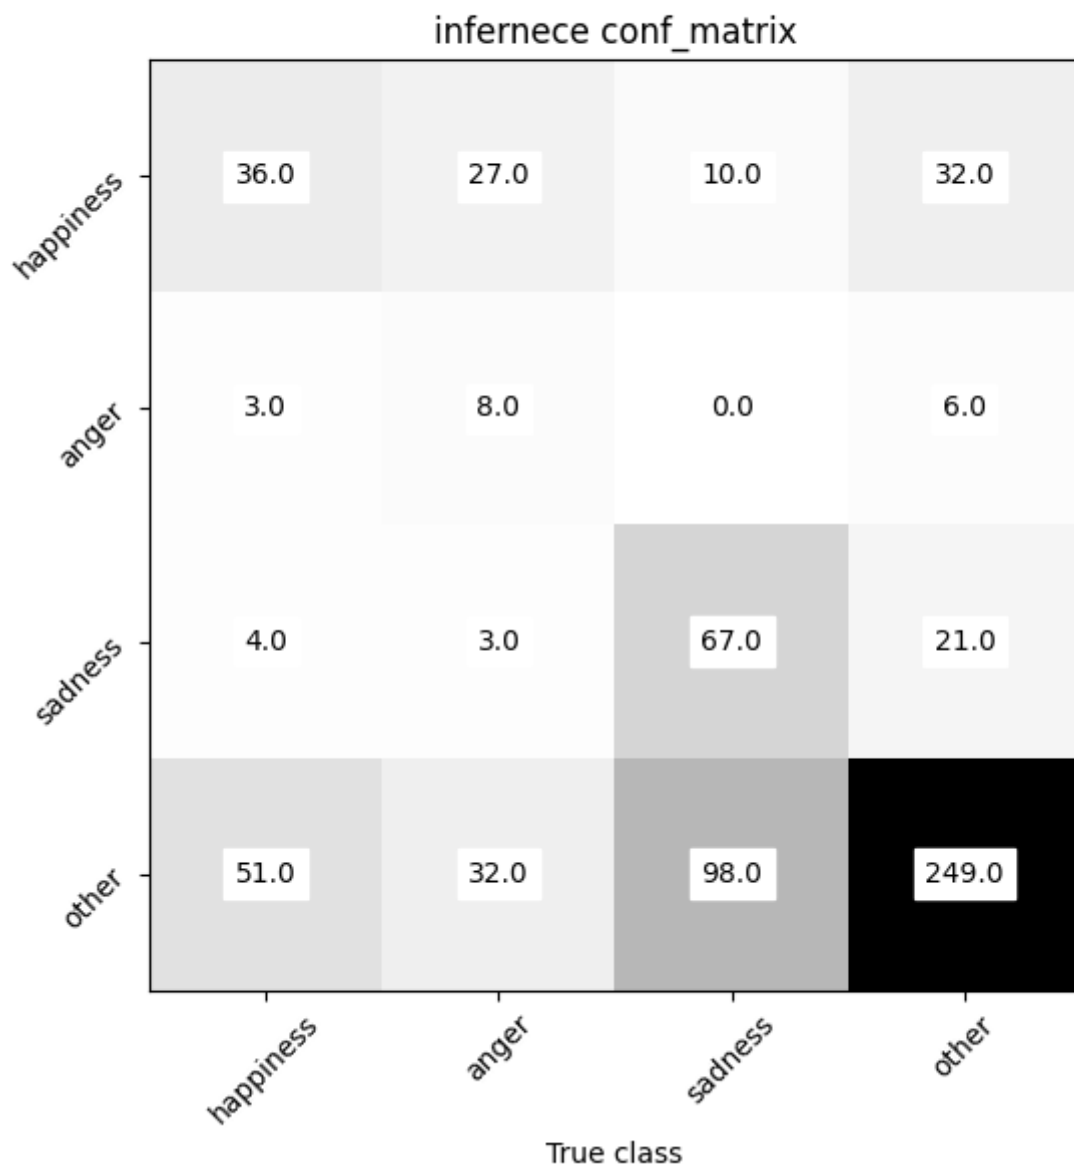

Inference results with inference script on improv team dataset:

f1: 57.607, acc: 48.321

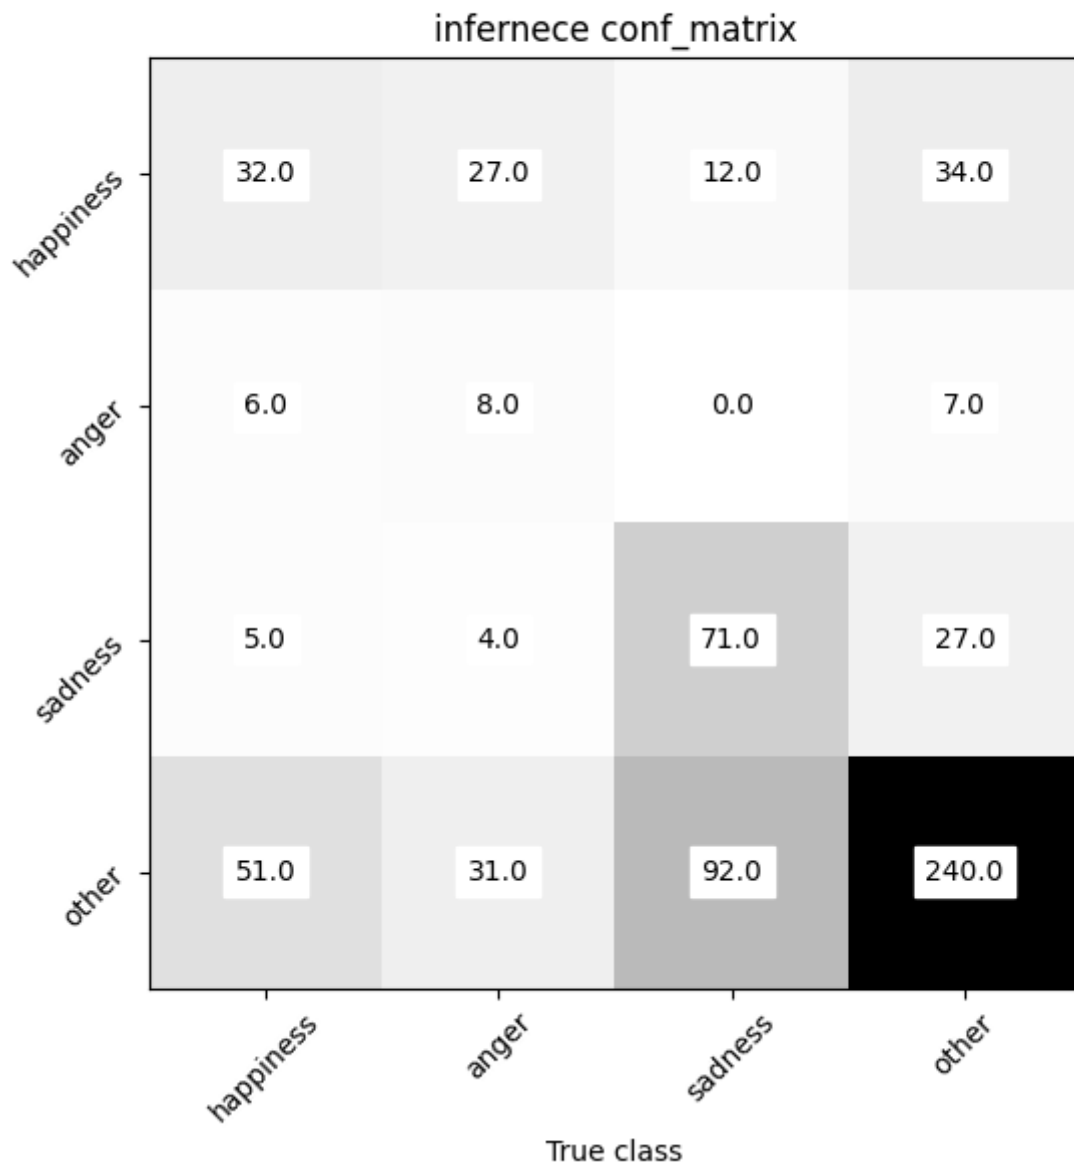

Inference results with inference script on de-noised (00) improv team dataset:

f1: 52.793, acc: 42.214

Inference results with inference script on de-noised (05) improv team dataset:

f1: 51.843, acc: 40.991

Inference results with inference script on PP (threshold 3 test set) dataset:

f1: 37.001, acc: 38.366
