

PITCH
PATTERNS

Droša un automātiska zvanu un sarakstes analīze (on-premises)

Katrā zvanā tiek noteiktas tēmas, izmantojot dažus atslēgas vārdus, kuriem automātiski tiek piemeklēti locījumi, jēga un sinonīmi.

Tiek iegūta zvana tēma un kopsavilkums.

Ar vaicājumu palīdzību iespējams izgūt informāciju automātiski pēc zvana datu bāzē.

The screenshot displays the Pitch Patterns web application interface. At the top, the URL is app.pitchpatterns.com/conversation/8960b81a-954a-4b21-9050-064434eb0b82?ts=55&tab=topics. The navigation bar includes "PITCH PATTERNS" and menu items: "Worktable", "Report", "Dashboard", "Deals", "Tasks", and "Conversations".

The main interface shows a conversation analysis dashboard for a call with "Marta". The dashboard includes a timeline view with various colored bars representing different topics and structures. A red bar is highlighted in the "Topics" section. Below the timeline, there are tabs for "Summary", "Topics", "Structure", "Emotion patterns", "Scorecard", "More stats", and "Word Patterns".

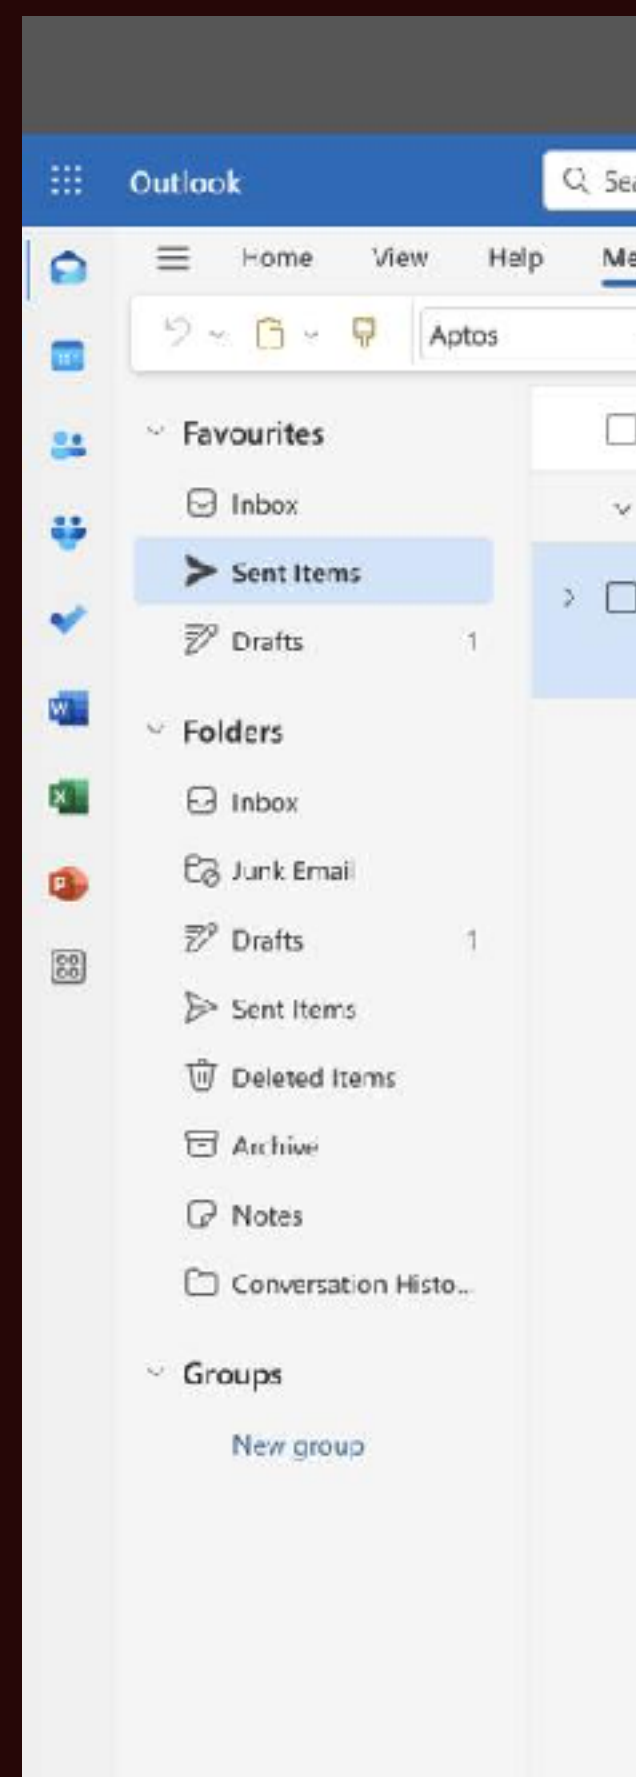

The "Topics" tab is active, showing a list of topics for both "Marta" and "Client":

- Marta:**
 - 3 Agent - Good Words
 - 1 Filler words
- Client:**
 - 2 Small Talk
 - 3 Client confused

Below the topics, there is a chat log showing the conversation. The "Marta" message says: "Labi, super! Tās ir ļoti labas ziņas". The "Client" message says: "Jā, es vēl sūtīju. Man šķiet, es **nezinu**, me...". The word "nezinu" is highlighted in red in the original image.

At the bottom of the screen, there is a video player interface with a progress bar showing 00:55, a 15-second skip button, and a 1x playback speed indicator.

Iespējama informācijas atsekošana un tēmu atklāšana arī e-pastos, čatos, telegram whatsapp (ja pieejama integrācija)

A screenshot of a word cloud analysis tool. The top navigation bar includes 'Messages', 'Sources', 'Settings', 'Integrations', and 'Chat'. The main area displays 'Most frequently used words' with filters for 'Word cloud', 'Words', and counts for 1, 2, and 3 words. The largest word in the cloud is 'procesu digitalizācijai', followed by 'digitālās brieduma digitalizācijas programmā' and 'digitalizācijas projektā'. Below the cloud, there is an 'Excluded words' section with a list of terms like 'business account', 'account ampere', etc. At the bottom, a 'Conversations' table shows a message from 'fedotovskanma@gmail.com' with a subject line 'Atbalsts procesu digitalizācijai'.

A screenshot of a chat window. The message text reads: 'Labdien! Paldies par ziņu! Lai saņemtu atbalstu par īstānotu projektu programmā "Atbalsts procesu digitalizācijai", 30 dienu laikā pēc investīciju projekta atbalstāmo darbību īstenošanas nepieciešams business.gov.lv sistēmā iesniegt maksājuma pieprasījumu, kuram pievienojami šādi dokumenti: 1. Otrreizējais digitālā brieduma tests; 2. Iepirkuma dokumentācija; 3. Līgums ar pakalpojuma sniedzēju; 4. Līdzīgs līgums (ja tāds ir un attiecas)'. The chat interface includes an 'Insert Text' button, the agent name 'Agent: Assistant RTX 60', and the 'Eldigen' logo. At the bottom, there are 'Send' and 'Discard' buttons.

Dokumentu pārbaudes sistēma

Iespēja automatizēt līdz 50% darba iepirkumu, tāmēšanas dokumentu pārbaudēs un kursa materiālu, aprakstu un pat studentu darbu pārbaudēm.

Ietaupījums uz vienu procesu līdz **40h/mēnesī**.
